Subject: SMP vote

Dear Council Members, As a Bainbridge Islander who has followed the issues regarding the SMP by watching the proceedings on television, listening to community members, and following the articles in the newspaper, it is clear to me that it is time for you all to stand firm against those who want to weaken the protections of our shorelines and vote to send the final version of the SMP to the Department of Ecology. You have all spent many hours listening to the citizens of Bainbridge Island, and for that I commend you for your patience and your willingness to hear all of the citizens. But please know that there are many of us who have not come to speak before you, but who are very concerned about the health of Puget Sound and want you to move the SMP forward. In addition, it's time to put this issue to rest and begin to address the other important issues which need your attention.

Please think of the future of the island, of our children and grandchildren, and of the planet. It's time to do the right thing!

Thank you.
