Subject: SMP

Hi BI City Council,

In my opinion what really works in this world is common sense, and that is rarely taken into consideration on this Island. It is run by special interest groups who want to control everything we do. I must say that I'm very liberal in most of my thinking, but this taking of private property and rights to the extent you are attempting on the new SMP is out of control.

Take the input from the citizens who live on the waterfront, not the ones that don't want us to enjoy the property we own and pay taxes on. Why would I want to destroy my own property, or the environment?

If you would concentrate on educating folks to not use fertilizers and pesticides around their homes (all homes not just waterfront) you will see Puget Sound start to recover. I grew up here, I know the Sound used to be teeming with life. It is not the shoreline homeowners that have destroyed Puget Sound, it is all the pollution from storm runoff and fertilizers etc. that is poisoning the Sound. Would you get your act together and work towards the problem, not stealing the use of and the value of us shoreline property owners who pay for so much of what this Island has with our hard earned taxes.

Sincerely,

Kirk R. Andreasen
