Is the taking of our property rights give us a tax deduction as being deprived if the bulkhead was destroyed, insurance cancelled and watch our property wash away? since the leadership now has the City near bankruptcy, more likely to happen as the property tax base erodes.

Let's reopen the creosol plant for tax revenue.

Then a natural outgrow the plant process is focus on the care of MS victims. Bainbridge Island has a disproportional number of multiple sclerosis already, lets's add to us.

God save us from the Planning Commission and City Council.
