Subject: Yes to Hytopoulis

I agree with Mayor Hytopoulis that a 2 tier analysis of the SMP recommendations is desirable.

If a regulation or change is required to come into compliance with Washington state laws, then we must do it. There is no reason for discussion.

It is in the areas of options that we should focus our discussion and deliberation.

Is it possible to have the new SMP draft done in **bold script for mandatory regulations**, with plain print for the optional recommendations?

It would certainly make it much easier for all concerned to do a more thorough and thoughtful job of evaluation.

Thank you for your consideration.

Sincerely,

Jola Greiner
