

**ORDINANCE NO. 2012-14**

**AN ORDINANCE** of the City of Bainbridge Island, Washington, relating to transportation; amending Title 12 of the Bainbridge Island Municipal Code (BIMC) to create a new chapter, Chapter 12.29, for the purpose of establishing a Transportation Benefit District.

**WHEREAS**, the City of Bainbridge Island has the responsibility for the improvement, maintenance, protection and operation of public streets and ways within the corporation limits of the City; and

**WHEREAS**, the improvement, maintenance, protection and operation of public streets and ways requires preserving existing transportation improvements to avoid both catastrophic failure that would require significant additional funds for reconstruction and to avoid their gradual deterioration that would lead to reduced safety margins and increased congestion; and

**WHEREAS**, the Washington Transportation Plan 2007-2026 approved by the Washington Transportation Commission states the highest priority is to preserve and extend prior investments in existing transportation facilities, and specifically recognizes the preservation, maintenance and operations of city streets as a matter of state-wide significance; and

**WHEREAS**, the Destination 2030 Metropolitan Transportation Plan for the Central Puget Sound approved by the Puget Sound Regional Council states that the first priority is to maintain, preserve, make safe, and optimize existing transportation infrastructure; and

**WHEREAS**, the City has limited funds to pay for such necessary preservation, maintenance and operation of streets and ways; and

**WHEREAS**, on-going costs of preservation, maintenance and operation of streets and ways continue to increase, while dedicated revenues have decreased due in significant part to the loss of Motor Vehicle Excise Tax revenues formerly available to the City; and

**WHEREAS**, chapter 36.73 RCW provides for the establishment of transportation benefit districts and for additional revenue sources for transportation improvements within the district that are consistent with existing state, regional or local transportation plans and necessitated by existing or reasonably foreseeable congestion levels; and

**WHEREAS**, the City desires to form a transportation benefit district to include the entire boundaries of the City of Bainbridge Island as such boundaries now exist or may hereafter be extended by future annexations; and

**WHEREAS**, the City has provided public notice and conducted a public hearing regarding the proposed establishment of the transportation benefit district as required by RCW 36.73.050; and

**WHEREAS**, it is in the best interests of the City to establish a city-wide transportation benefit district for the improvement, preservation, maintenance and operation of the City’s transportation infrastructure to improve and protect the City’s long-term investment in such infrastructure, to reduce the risk of transportation facility failure, to improve safety, to avoid more expensive infrastructure replacements in the future, and to reduce congestion or stem the expected increase in congestion created by failing roads;
