Sportsman Club Road Non-Motorized Improvements to Begin Next Week

BAINBRIDGE ISLAND, June 13, 2013 – Work will begin on Sportsman Club Road next Monday, June 17. The City has contracted with Lakeside Industries Inc. to install non-motorized shoulder improvements on the west side of Sportsman Club Road from Wardwell Road to approximately 400 feet south.

During construction hours, between 6 am and 5 pm Monday-Friday, Sportsman Club Road will be restricted to one-way northbound traffic. A detour route will be established for southbound traffic and residents/local traffic accessing Wardwell Road. Shoulder work is expected to last for approximately one week, with paving to follow as weather permits.

Citizens are encouraged to access Sportsman Club Road from the south when delivering donations to Woodward Middle School for the Rotary Auction, beginning Friday, June 21.

This improvement project is part of the City's Core 40 Program which targets 40 roads for upgrades around the island for non-motorized improvements.

To view the traffic map, please visit the City's website: www.bainbridgewa.gov.
