Margaret Halkin
Associate Producer
Warm Springs Productions

Dear Ms. Halkin,

Thank you for your interest in filming on Bainbridge Island. The City of Bainbridge Island does not require a film permit for filming that occurs on the island. We also do not have any additional ordinances or requirements regarding the piloting of drones.

I've been told that your project would occur on private property. If for any reason you decide that you need to close a road or other public right-of-way for filming, please contact me so that I can help you navigate that process.

I hope that you enjoy spending time on our beautiful island. Please don't hesitate to contact me if you have any questions.

Thank you,

A handwritten signature in blue ink, appearing to read 'Kellie Stickney'.
