

## NARRATIVE

Vehicle 1 was traveling east on Winslow Way, approaching the intersection with Ericksen Ave, and intending to turn left, to go north on Ericksen. Vehicle 2 was traveling west on Winslow Way, and was stopped for traffic in front of the southbound Ericksen lane of travel. Vehicle 1 initiated their left turn, intending to go around Vehicle 2. Vehicle 1 collided their driver side mid-panel into the rear left corner of Vehicle 2. No occupants claimed any injury. The witness was behind Vehicle 2 in their vehicle, and observed the collision in front of them. Both Vehicles sustained minor damage. Both Vehicles were able to leave the scene under their own power. I provided all parties with an exchange of information.
