

NARRATIVE

On 01/27/2025, at approximately 1104 hours, I was dispatched by CENCOM to 4790 NE Eagle Harbor DR (Mac N Jacks Island Auto Service) regarding a motor vehicle collision.

Driver 1 stated he towed a customer's vehicle to Mac N Jacks parking lot for repair. Driver 1 stated after he disconnected the customers vehicle, he pulled to the edge of the private parking lot and stopped to clear NE Eagle Harbor DR before making his right-hand turn onto the roadway. Driver 1 stated the sun was very bright and right in his face. Driver 1 stated he could see left to right to clear the roadway before pulling onto it, but he could not see directly in front of him very well as the sun was so bright. Driver 1 stated while making his right-hand turn onto NE Eagle Harbor DR he struck a utility pole causing a power wire to be disconnected from the pole. I took pictures of Driver 1's vehicle and later uploaded them into Evidence.com. I provided Driver 1 my business card with the case number.

Puget Sound Energy (PSE) was notified and responded to the scene for repairs. PSE employee was provided my business card with the case number. I took pictures of the utility pole, power wires, and later uploaded them into Evidence.com.
