

NARRATIVE

Driver 1 stated she was arriving at the Bainbridge Island Ferry Terminal and realized she had missed her turn for the parking lot. Driver 1 stated she started backing up to turn around and backed in the metal stop sign post, knocking it down. Driver 1 got out of her vehicle and moved the sign post to the side of the road. Driver 1 then parked her vehicle in the ferry parking lot and called 911 to notify law enforcement of what had occurred. Driver 1 did not remain on scene due to her needing to catch the ferry, but did provide me all necessary information as well as where to find her car in the parking lot to take pictures.

I arrived and located the downed stop sign. Bainbridge Island Public Works was able to have the sign up and repaired within 45 minutes of my arrival. I located the driver's vehicle in the parking lot. I observed 3 small scratched/chips in the paint of the rear bumper. I documented photos of this. Driver 1 stated to me that she is not concerned about the damage to her vehicle.
