

NARRATIVE

On 12/17/2021 at approximately 1149hrs, CENCOM advised of an injury vehicle vs bicyclist in the area of Wyatt Way and Eagle Harbor Drive. The bicyclist who was struck was still laying on the ground complaining of knee pain.

I arrived at approximately 1152hrs and observed a male (bicyclist 1) laying on the ground in the roadway of Finch Rd. Vehicle 1 was stopped partly in the southbound left turn lane and the northbound lane. The bicycle was broken in multiple pieces, with the front wheel separated and appeared to have been ran over and the frame of the bicycle resting on the ground 5-10 feet in front of vehicle 1. The front tire of vehicle 1 was flat and it appeared to have been punctured by running over the front wheel.

Bicyclist 1 stated he was stopped on Finch Rd in the Southbound left turn lane to turn East onto Wyatt Way. While waiting for a safe time to turn left, vehicle 1 which was going eastbound on Wyatt Way turned North onto Finch Rd. As vehicle 1 made the turn, it entered the wrong lane crossed the South bound lane and into the southbound left turn lane, striking bicyclist 1.

Driver 1 said she was driving East on Wyatt Way and made the turn to north bound Finch Rd. Driver 1 said she never saw bicyclist 1 as she made the turn and struck him.
