

NARRATIVE

VEH 1 was traveling southbound on HWY 305 approaching the intersection with Agatewood RD. VEH 1 made a u-turn at the intersection, crossing into the northbound shoulder. VEH 2 was traveling northbound on HWY 305 approaching VEH 1. VEH 1 continued the turn back into the lane of travel, and struck the tire of VEH 2. VEH 2's tire had a three inch cut to the radial belt but suffered no other damage. VEH 1 suffered significant damage to the front left portion of the vehicle, and required a tow from the scene.

DRV 2 said he saw VEH 1 in the shoulder and that VEH 1 left the shoulder and struck his vehicle. DRV 1 admitted to making an improper u-turn, and not verifying the roadway was clear to re-enter. The passenger of VEH 1 stated the same as DRV 1.

All drivers and passengers were wearing seatbelts and stated they were uninjured.

I cited DRV 1 for an improper U-turn.
