

NARRATIVE

I observed two vehicles pulled over in the southbound shoulder of SR HWY 305, damage on both vehicles, and the drivers of both vehicles outside of the car. I pulled behind the vehicles and verified a collision had just occurred, and that no one had been injured. Both vehicles suffered damage above the reportable threshold, but were mechanically sound and safe to drive from the scene.

I spoke with DRV 1 and DRV 2 who agreed on the facts leading to the collision.

VEH 1 was traveling northbound on SR HWY 305 just north of Winslow Way E. VEH 1 made a U-turn on the highway to cross into the southbound shoulder, to enter the ferry line. DRV 1 stated she forgot to check the other lane of travel northbound on SR HWY 305 and turned across the path of VEH 2, which was also heading northbound on HWY 305. VEH 2 struck VEH 1 on the rear corner of the driver's side, with the front end of VEH 2.

I cited DRV 1 for making a prohibited U-turn, as DRV 1 made a U-turn that impeded traffic.

I supplied both drivers with an exchange of information form for the collision. I photographed the damage to each vehicle and uploaded the images to Evidence.com.

I recorded this incident on my body worn camera and advised parties present that I was recording.
