

## NARRATIVE

Vehicle 1 was in the drive-thru of the McDonald's restaurant. Pedestrian 1 was an employee at that McDonalds. The driver of Vehicle made a large order for food with a retail price of approximately \$150. Before making payment or accepting food, Vehicle 1 left the drive-thru and left the parking lot toward High School Road. Pedestrian 1 exited the McDonalds and gave chase to Vehicle 1. As Vehicle 1 made a left-hand turn onto westbound High School Road, Pedestrian 1 caught up. However, Pedestrian 1 lost their balance and fell into the side of Vehicle 1. Vehicle 1 was scratched along the rear driver's door and C Pillar. Pedestrian 1 suffered neck soreness and stiffness.

The driver of Vehicle 1 explained that they left the drive-thru because he realized that he had forgotten his wallet. Pedestrian 1 reported that the driver of vehicle 1 came to the first window and laughed at he left after placing a large order. Pedestrian 1 explained that he chased the car because he believed that the driver of Vehicle 1 placed a large order on purpose and caused the restaurant to suffer a loss because much of the food (approximately \$70 worth) had already been prepared. Pedestrian 1 explained that his goal was to reprimand the driver of Veh 1 and demand payment. Pedestrian 1 said, in hindsight, he should not have chased the car.
