

NARRATIVE

Unit 1 was legally parked in the Town and Country parking lot within the space lines. Unit 1 was unattended and parked.

Unit 2 drove into the parking space north of Unit 1 and struck Unit 1 on the driver's side rear.

Unit 2 then backed out and left without providing information.

Unit 2 was described as a gold BMW or Mercedes Wagon. License plate given was BAYZY39. This plate does not return. I attempted several plate combinations and could not locate a match or any valid license plate. I checked several adjacent parking lots and the Safeway complex and could not find a matching vehicle.
