

## **NARRATIVE**

Driver 2 called to report a traffic collision which occurred in the Safeway parking lot. He said he was backing out of a parking stall and did not see any vehicles on his back up camera when he was struck. He was able to get the license plate of Vehicle 1. Driver 2 said he re-parked his vehicle and when he got out the other vehicle had left. Driver 2 went into Safeway to see if the other party went into the store but he could not locate them.

Officer contacted Driver 1 at his home. Driver 1 said he was driving in one of the aisles when a car in front of him had been slightly in his lane and needed room to get by. He said he began reversing to give room to the other vehicle when he struck Vehicle 2. Driver 1 said he found a parking spot near Pau's Chinese and went inside to get paper to write a note for the vehicle because he believed the vehicle he struck was parked and not occupied. After Driver 1 wrote the note he returned to find the vehicle but he could not locate it.

Officer assisted both parties in exchanging information.
