

## NARRATIVE

On 03/16/2022 at approximately 0824hrs, CENCOM advised of a non-injury collision in the area of the Agate Pass Bridge between a Toyota Camry and a Nissan Murano.

Cpl. Lewis and I arrived on scene and contacted both Driver 1 and Driver 2. Driver 2 told me she was driving South on SR305 just south of the Agate Pass Bridge when she needed to slow for traffic. As she was slowing, she was struck from behind by Vehicle 1.

Driver 1 is not able to speak English and only spoke Spanish. Cpl. Lewis has a limited ability to speak Spanish but was able to ascertain Driver 1, said she did not see vehicle 2 had slowed for traffic and she was unable to prevent the accident. Driver 1 said she did not have a valid drivers license, just an ID card, and she did not have valid insurance.
