

## NARRATIVE

On 03/28/2022 at approximately 0700 hours, I was dispatched by CENCOM to SR 305/NE Lovgreen RD E regarding a vehicle vs deer collision.

Unit 1 stated she was traveling southbound on SR 305. When approaching the intersection of NE Lovgreen RD E, two deer ran out of the woods and was trying to cross the road from the West to the East. It all happened so fast that she did not have time to avoid striking one of the deer. Both deer attempted to jump over the hood of her vehicle, but she clipped the second one causing damage to the front end and driver side of her vehicle. Her vehicle is still drivable but asked if officers could call for a tow.

Kitsap Towing was requested per the owner's request and owner stood by for the tow. I took pictures of the damages to Unit 1's vehicle and later uploaded them into Evidence.com. I provided Unit 1 my business card with the case number. The deer was located and humane dispatched.
