

NARRATIVE

While Vehicle 1 was traveling southbound making a right hand turn onto Darden Ln from Toe Jam Hill Rd, the driver did not realize that there was a steep embankment off of the passenger side of the vehicle because it was very dark and hard to see. The driver slid into the ditch and was stuck at a steep angle. Kitsap Towing removed the vehicle from the ditch and the driver was able to drive the vehicle away from the scene. There were no damages to the vehicle, nor to any property in the area. The driver requested a report for their reference.
