

## **NARRATIVE**

At approximately 21:42 on 3/13/2023, officers were dispatched to a report of a non injury motor vehicle collision versus a utility pole near the intersection of Taylor Ave and Old Mill Rd. Upon arrival it was discovered that the driver of the vehicle had swerved off the road to avoid a raccoon while traveling eastbound on Old Mill Rd towards the intersection of Taylor Ave. As the vehicle left the roadway, the front of the vehicle struck and broke a 25 MPH wooden speed limit sign. The vehicle continued to travel and struck and broke off the top portion of a Qwest/Century Link utility pole as well. The lines appeared to remain intact, but both the speed limit sign and the utility pole will require repair. Driver declined aid and had no apparent injuries.
