

## **NARRATIVE**

Vehicle 1 was parked unoccupied forward into a parking spot in front of Kitsap Physical Therapy at 945 High School Road. The scene was not observed by law enforcement. The following is an estimate of events based on the damage sustained to Vehicle 1 and other information received from an anonymous witness who left a note for the owner of Vehicle 1. Vehicle 2 attempted to park in the parking spot next to the driver's side of Vehicle 1. However, Vehicle 2 turned too wide and scraped the rear driver side quarter panel with the front passenger side corner of vehicle 2. Vehicle 2 pulled back out of its spot and left the scene. The witness identified Vehicle 2. A computer check of the plate identified the registered owner.

On May 29, the officer contacted the owner of Vehicle 2 who advised that she was not aware she struck a car. The driver said she was driving Vehicle 2 and that she was on-scene to see her eye doctor. The driver said they attempted to pull into a parking spot, but detected that they would not fit into the parking space. They drove around the building and found a different parking spot with space for them to park. The driver was apologetic for the incident and insisted that they would have left information if they realized they had struck a car.
