

NARRATIVE

V-1 was traveling north bound on SR 305 approaching Lovgreen Rd. D-1 advised that he looked over at his son's cell phone as his son was texting to confirm what his son texted. When he looked up, he discovered the vehicle in front of him had come to a stop. He struck V-2, and her [REDACTED] who was secured in a car seat directly behind her. The impact caused V-2 to turn over on its roof.

Driver of V-2 advised that she was almost at a complete stop on SR305, just south of Lovgreen because of traffic backup. She looked in her rear-view mirror and noticed V-1 was continuing, so she turned her wheels to the right in attempt to avoid the rear end collision, however she was unable to in time.

D-1 had a small laceration on his finger and complained of soreness, however refused medical attention on scene. His [REDACTED] complained of a sore finger as well but refused aid.

D-2 had a small laceration on her forehead and her 3 year-old was transported to the hospital for precautionary measures.

Based on my investigation, I cited D-1 for Inattentive Driving.

D-2 was cited for DWLS/R 3rd Degree through the courts.
