

## NARRATIVE

Driver apparently fell asleep while driving, drifted off the road, then hit the accelerator instead of the brake, with the vehicle coming to rest against a tree. The driver of the vehicle behind # 1 identified himself as "[REDACTED]" and advised that #1 was traveling the speed limit and slowly drifted off the roadway and into the tree. He advised that the vehicle was traveling the speed limit, and when he made contact with the driver she didn't appear impaired. I spoke with the driver who believed she had been sleepy prior to the crash. She complained of minor pain from where the seatbelt was across her shoulder. She was evaluated by Aid then released and transported home by Cpl. Lewis. BWC Sias. Car was left on scene for driver to have AAA retrieve. Driver did not have a current insurance card. Vehicle has obvious damage to front left from tree and damage to undercarriage.
