

NARRATIVE

Vehicle 1 (V1) was southbound on Madison Ave. N. When the driver of V1 began to make a right turn toward Bainbridge Island School District and Bainbridge Aquatic, gravel in the roadway caused him to slide and lose control of the bike. He ended dropping it on its left side, injuring his arm and leg in the fall. There were minor scrapes to V1's left handle and foot rest, and there was a light leak. The driver and owner of V1, was treated by BIFD EMTs for lacerations to his left arm and left knee. He was released at the scene and he arranged to get the vehicle home.
