

NARRATIVE

Vehicle #1 was stopped at the intersection of Wing Point and Park preparing to turn right into west bound Wing Point. While at the stop sign, he saw vehicle #2 approaching from the east. Driver #1 believed that the intersection was a three-way stop and he also observed that the driver of #2 was signaling a right turn onto north bound park. Driver #1 began his right turn and collided with vehicle #2. Driver #1 was focused on making the turn onto Wing Point to avoid striking east bound traffic on Wing Point.

Driver of #2 said that she initially was going to turn onto north bound Park but changed her mind and began to go straight and was hit by #1.
