

NARRATIVE

At the date and time indicated in this report I was dispatched by CENCOM for a report of a non-blocking/ non-injury collision near the roundabout at Madison Ave N and High School Rd NE.

I arrived on scene and observed that a rear end collision had occurred. Vehicle 2, a black Subaru Impreza, had been stopped in the roadway to allow a vehicle in front of them to make a left hand turn into the Pacifica Wellness Office parking lot at 1173 Madison Ave N. The driver of Vehicle 1, the light blue Chevy Cruze, was following too closely and struck the rear end of Vehicle 2 with their front end. The driver of Vehicle 1, [REDACTED], was cited for following too closely. Vehicle 1 had a crack in the radiator and had to be towed from the scene.
