

NARRATIVE

Veh 1 and Veh 2 were both traveling EB on Winslow Way as they approached the intersection of SR 305. Veh 2 began to make a right hand turn from Lane 2 of 3 (center lane) of Winslow Way into Lane 2 of 2 of SB SR305 which is a lane for transit vehicle to get to the ferry. Veh 2 could not make the turn in one motion due to the size of the vehicle as well as overflowing traffic in lane 1 of 2 (ferry waiting line).

Veh 2 stopped mid turn to adjust the vehicle as to not hit vehicles in the oncoming lanes and the vehicles waiting in the ferry line. Veh 2 began to back up to slowly adjust his position when Veh 1 came through the lane of travel striking Veh 2. Per witnesses that were on Winslow Way in lane 3 of 3 (left turn lane) they stated Veh 2 was already backing when Veh 1 attempted to get around it causing the 2 car collision.
