

## NARRATIVE

Single vehicle accident. Vehicle/driver were called in as possibly using IV drugs prior to accident. Witness called in reckless driving and later called in a roll-over accident. Vehicle struck a city street sign and struck a utility pole, rolling over and coming to rest on its top. Appears that the driver was not wearing seatbelt; also no insurance info due to aid transport. Driver was air lifted by aid for injuries to Seattle Harbor View Hospital. We were unable to get any statement from the driver due to the transport. Please see case report [REDACTED].
